Dear Mr. Wright:

The Ravalli County Board of Commissioners wishes to thank you for your interest in recycling. While we do not have a mandated policy in place for the County, please be assured we are working towards that goal.

The Commissioners have in the past and will continue to request new subdivision developments to implement through covenants to not use woodstoves as a primary heating source due to the increase of particulate matter (air pollution) in the County. They have also been working with the Department of Environmental Quality to take positive steps in improving the air quality for the County.

I am enclosing information regarding the local recycling center the County refers citizens to use. If you have any further questions or concerns, please feel free to contact our County Environmental Health Department at 375-6565.

Thank you again for expressing your concerns to the Ravalli County Commissioners.

Sincerely,

Beth Perkins
Secretary
Ravalli County Commissioners
